FOR IMMEDIATE RELEASE

THE DOCTORS AND STAFF OF FLORIDA EYE MICROSURGICAL INSTITUTE WELCOME INTERNATIONALLY RECOGNIZED SURGEON TO THEIR PRACTICE

December 7th, 2009, Boynton Beach, FL... Peter A.D. Rubin, M.D., F.A.C.S., an internationally recognized clinician, surgeon, teacher, and innovator from Boston, Massachusetts, has joined forces with Florida Eye Microsurgical Institute in Palm Beach County to provide medical and surgical expertise to the practice within the field of Ophthalmic Plastics and Orbital Surgery.

Trained at the finest institutions, Dr. Rubin graduated from Princeton University and received his medical degree from Yale University School of Medicine. He then completed his Ophthalmology residency at Manhattan Eye, Ear, and Throat Hospital, followed by a fellowship in Orbital Oncology and Oculoplastics at Massachusetts Eye and Ear Infirmary, Harvard Medical School, where he went on to direct Oculoplastic and Orbital Surgery for more than 13 years. There he trained over 100 residents and fellows in the science and art of his highly specialized field.

“We are very excited to have Dr. Rubin on board,” says Dr. Lee Friedman, the group’s Pediatric, ROP and Adult Strabismus Specialist. “His presence adds to our goal of complete and total eye care at Florida Eye by enabling us to now offer patients the absolute best in ophthalmic plastic surgery and orbital surgery, in addition to our existing specialties. “

-more-

Dr. Rubin echoes Dr. Friedman's sentiments. "I am thrilled to be working with such an esteemed group as Florida Eye. They are truly committed to outstanding patient care, and I look forward to a rewarding relationship with them."

Dr. Rubin's subspecialty practice focuses upon cosmetic, plastic and reconstructive problems related to the eyelids, the lacrimal (tear) system, and the orbit (the bony cavity around the eyeball). These structures can be affected by normal aging, tumors, injuries, infections, inflammations, or inherited abnormalities. His aesthetic specialties include working with injectables and soft tissue fillers, upper and lower blepharoplasty procedures, cheek lifts and forehead lifts.

A caring teacher and gifted surgeon, drawing upon a vast clinical experience and his own research, Dr. Rubin takes pride in educating his patients about their condition, the various diagnostic and treatment options, and establishes customized management plan in every case.

Dr. Rubin has performed more than 15,000 surgical procedures, authored of over 200 papers and chapters in his subspecialty, was awarded a U.S. patent for implant design, and lectures nationally and internationally. He serves on the editorial boards of Ophthalmology and Ophthalmic Plastic and Reconstructive Surgery, has received the Senior Achievement Award from the American Academy of Ophthalmology, is an examiner for the American Board of Ophthalmology and is included in Best Doctors in America and listed as a top doctor in "Best of Boston" from *Boston Magazine*.

The Florida Eye Microsurgical Institute offers a full range of comprehensive ophthalmologic care, including routine eye care and examinations, pediatric eye care, dry eyes, advanced corneal, retinal and cataract

procedures, laser treatments, glaucoma and diabetic procedures, and various other sophisticated treatments. With its own pediatric wing and fully accredited outpatient surgical center in Boynton Beach, the Institute has additional offices in Boca Raton, Wellington and Juno Beach (pediatrics only).
